    Used to determine if the household in
    which this person lived changed
    composition over the 4 reference months
    or in the 5th month up until date of
    interview.  A change in address is not
    reflected in this field unless the
    composition of the group living
    together changes as a result.  The
    first field is always "1".  For each
    succeeding month the value of the field
    is the same as for the preceding month
    if there has been no change in
    composition.  If a change has occurred,
